

Repertoire for the 31-tone Fokker organ

Compiled by Ere Lievonen
Updated 18.8.2017

This repertoire list is divided into the following sections:

1. Music for 31-tone organ solo
2. Music for MIDI controlled 31-tone organ
3. Music for MIDI controlled 31-tone organ and live organist
4. Ensemble music for 31-tone organ
5. Music for other 31-tone keyboard instruments
6. Ensemble music for other 31-tone keyboard instruments
7. Music for organ in meantone temperament
8. Ensemble music for organ in meantone temperament
9. Early music in meantone temperament

Sections 1-4 contain music written specifically for the 31-tone Fokker organ (or its predecessor, the Euler organ). These sections aim for completeness.

Sections 5-6 contain music for other 31-tone keyboard instruments (such as the archiphone), which may or may not be adaptable for performance on the Fokker organ. These sections are complete only insofar as the Huygens-Fokker archives are concerned.

Sections 7-8 contain contemporary music for normal organs in meantone temperament, which may be playable on the Fokker organ as well. These sections are not complete, and could not be so without extensive further research. New information about existing works would be much appreciated.

Section 9 includes early keyboard music in meantone temperament, and is no more than a personal memo of some pieces of special interest.

Please communicate any additions or corrections to me by email.

The "keyboard" column in sections 1, 3 and 4 indicates which keyboard(s) the Fokker organ is played on. Abbreviations used:

For works composed before 2000:

"main" refers to works intended for the main (31-tone) console of the Fokker organ.

"aux" refers to works intended for, or at least playable on the auxiliary (12-tone) console.

"(aux)" is used for works originally written for the Euler organ, as all of these were also playable on the auxiliary console of the Fokker organ.

For works composed after 2000:

"31" refers to works intended for the 31-tone keyboards of the Fokker organ console.

"12" refers to works intended for 12-tone MIDI keyboard(s), with or without 31-tone pedals.

"(12)" means that a transcription for 12-tone MIDI keyboard(s) exists.

In the "instrumentation" column of section 4 (Ensemble music for 31-tone organ), "org" always refers to the 31-tone Fokker organ.

"16th-t pno" refers to the 96-tone Carrillo piano.

CM = published in Corpus Microtonale

An "x" in the leftmost column guarantees that the information has been checked by me personally. This is true for part of the other information as well, but some of the other information comes from indirect sources only (such as publisher's or archive catalogues).

1. Music for 31-tone organ solo			comp.	remarks	keyboard	
x	Henk Badings	Preludium en fuga I	1952	also a version for organ in 12-TET	main
